

GLOBALNET

SIMPLE MAIL SERVICES

(POWERED BY AWS)

Seamlessly connect the world
with GlobalNet Simple Mail Service

GLOBALNET SIMPLE EMAIL SERVICE IS A SECURE, MANAGED BUSINESS EMAIL AND CALENDAR SERVICE WITH SUPPORT FOR EXISTING DESKTOP AND MOBILE EMAIL CLIENT APPLICATIONS.

FUNCTIONS

MANAGED SERVICE

Amazon WorkMail makes it easy to manage your corporate email infrastructure and eliminates the need for up-front investments to license and provision on-premises email servers.

ACTIVE DIRECTORY INTEGRATION

Amazon WorkMail securely integrates with your existing Microsoft Active Directory so that users can access their mailbox using their existing credentials.

FEATURE-RICH WEB CLIENT

Amazon WorkMail provides a feature-rich web client so that users can access their email and calendars, view shared calendars, quickly schedule meetings with co-workers, or search the company address book using their browser.

LARGE MAILBOXES

Amazon WorkMail provides a 50 GB mailbox size by default, eliminating the need for users to have to worry about dealing with large attachments or mailbox size restrictions.

PRICING

\$4.00 per user per month

PERFORMANCE

ENTERPRISE-GRADE SECURITY

Amazon WorkMail automatically encrypts all of your data at rest with encryption keys you control, using the AWS Key Management Service (KMS). Amazon WorkMail also allows you to retain full control over data locality by choosing the AWS region where all of your data is stored.

ANYWHERE ACCESS

Users can synchronize their mailboxes with iOS, Android, Amazon Fire, and Windows Phone devices.

SPAM AND VIRUS PROTECTION

Amazon WorkMail scans all incoming and outgoing email for spam, malware, and viruses to help protect your users from malicious email.
